Looking for an opportunity to apply my knowledge and skills and achieve success both professionally and individually.

## SKILLS

- Python
- HTML
- CSS
- JavaScript
- React.js
- Node.js
- Express.js
- MongoDB
- Tailwind CSS
- Bootstrap

## STRENGTH

- Team Player
- Excellent Communicator
- Quick learner
- Good Listener

## PROJECTS

### DigIN (Food Delivery Application) | React.js, Node.js, Express.js, MongoDB

- Developed a secure food delivery application utilizing MongoDB, React.js, Node.js, Express.js, and Bootstrap.
- Implemented user-friendly signup and sign-in page with express validator, JWT authentication, and bcrypt.js for security.
- Enhanced user experience through the implementation of a dynamic cart and order history using Context API and reducers.
- Designed visually appealing welcome and home pages, incorporating engaging elements like cards and carousels and Noistack notifications.
- [GitHub Link- DigIN](#)

### Book Store (Book-Store Application) | React.js, Node.js, Express.js, MongoDB

- Implemented a feature-rich book store application using MERN stack, Tailwind CSS, and Vite.
- Built comprehensive CRUD operations on both the backend and frontend for efficient data management.
- Tailored for students, the platform enables easy organization and planning of study materials. Users can create, read, update, and delete book entries, facilitating seamless tracking of reading progress.
- Dual presentation modes allow users to view their book lists in both table and card styles, enhancing user experience.
